Items Needed to Perform Update

- A Windows Operating System PC (Windows 7 and up)
- Any generic data transfer Micro USB Cable
- Spektrum Smart Charger S1100
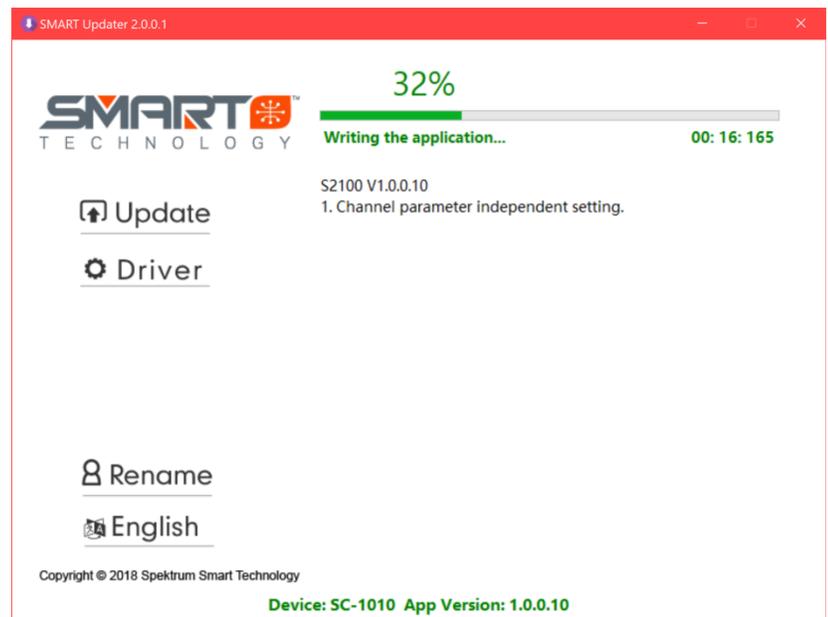

Step by Step

Download the latest S1100 updater here

Once downloaded extract the .ZIP file to a location that you can easily find, we suggest the Desktop

Locate the SCU.exe file and open/execute

You will be presented with this screen

- Plug in power to your S1100 Charger
- Then plug in the USB Update cable into your PC and into the port on side of charger
- The lower portion of the screen will then display the Device and App version currently on your S1100
  - IF the device does not connect click the Driver button to install the appropriate driver

Click the **Update** button to install the update on your S1100 Charger. A progress bar will appear on your computer screen and the screen on your S1100 will notify that an update is in progress.

Wait until the update is complete, and enjoy!

Change Log
